

1. PERSONAL DETAILS

NAME	Chryssi MYTILINEOU
NATIONALITY	Hellenic
SEX	Female

2. RELEVANT EDUCATION

- Bachelor in Biological Sciences
- Ms.Sc. in Biological Oceanography
- Doctorate Thesis in Fishing Gear Selectivity (in final phase)
- Post-graduated studies on Biology and Fisheries of Decapods and Fish Population Dynamics in the *Instituto De Ciencias Del Mar* (Barcelona, Spain).
- Post-graduated studies on the hermaphroditism and the reproductive cycle of fish in the *Université De Perpignan* (France).

3. LINGUISTIC SKILLS

- Greek
- English
- French
- Spanish

4. PROFILE (Main Organization at which you are employed, Position)

Organization

Institute of Marine Biological Resources and Inland Waters (IMBRIW) of H.C.M.R.

Position

1995-1998: Ichthyologist, Associate Researcher C´

1998-2002: Ichthyologist, Associate Researcher B´

2003- today: Ichthyologist, Associate Researcher A´

5. SCIENTIFIC DISCIPLINES

- Fisheries Biology and Ecology
- Selectivity of Fishing Gears, Fishing Technology and Fish Behaviour
- Fisheries impact on biological resources and biodiversity
- Deep-water biological resources and habitat-Anthropogenic Impacts
- Age, Growth, Reproductive cycle and Hermaphroditism in Fish

6. PUBLICATIONS (after 1995) (Peered journals, Conferences, Technical Reports)

Publications in peer-reviewed journals

1. **Mytilineou, Ch.**, Herrmann, B., Mantopoulou-Palouka, D., Sala, A., and Megalofonou, P., 2021. Escape, discard, and landing probability in multispecies Mediterranean bottom-trawl fishery. *ICES Journal of Marine Science*, doi:10.1093/icesjms/fsab048
2. **Mytilineou, Ch.**, Herrmann, B, Sala A, Mantopoulou-Palouka D, Megalofonou P, 2021. Estimating overall size-selection pattern in the bottom trawl fishery for four economically

- important fish species in the Mediterranean Sea. *Ocean & Coastal Management*, 209, 105653 <https://doi.org/10.1016/j.ocecoaman.2021.105653>

7. DESCRIPTION OF CURRENT FUNCTION AND PROFESSIONAL ACTIVITIES (Research Management and Strategy activities)

Chryssi Mytilineou has a 30-year career in IMBRIW in the domain of Fisheries Biology and Ecology, Selectivity of fishing gears, Fishing technology and Fish Behaviour, Fisheries impact on biological resources and biodiversity, Deep-water biological resources and habitat and Anthropogenic impacts on them. She holds a position of Associate Researcher A' since 2003.

She has attended special training courses in Fisheries Statistics, Fisheries biology of Crustaceans, Population dynamics, Ageing of Fish and Crustaceans, Fish hermaphroditism, gonad gametogenesis and histology and she is in the final phase of her Ph.D. Thesis on fishing gears selectivity at the University of Athens.

She has participated or co-ordinated 19 national and international projects and co-ordinated 5 European Union (EU) projects. She has participated in the Steering Committee of 1 international FP7 project and organized/coordinated 2 Workshops of ICES. She has supervised 1 B.Sc. thesis and the training of 23 BSc students. She has given lectures on fishing gears selectivity for MSc students. She has contributed in 53 papers in peer-reviewed journals, 15 book chapters, 2 books, 1 book as editor as well as more than 165 other publications (i.e., conference proceedings and abstracts, special publications, newspapers and magazine articles) and co-authored 80 technical reports. Further information is available in: <https://scholar.google.com/citations?hl=el&user=xVRDRxAAAAAJ>
